1. Introduction

txtNotes is a notepad application for Blackberry® Pearl™ 8100 smartphones. This application can save text as ASCII text files on device memory or in external card memory. txtNotes is companionable with the Blackberry® memopad application and can be used to import or export memo as text files and text file as memo respectively.

1.1 Features

- Highly optimized Blackberry® Pearl™ 8100 smartphones
- ASCII Text files creation
- Saving Text files to device memory and card memory
- Importing a Memopad memo as text file
- Export a text file as memopad memo
- User friendly interface
- One-time payment – lifelong Free upgrades and bug fixes
- Premier customer support via e-mail and community forums

2. System Requirement

- RIM Blackberry® OS 4.2 or higher
- 42K of free memory
- External MicroSD card is required for saving to and reading files from card

2.1 Compatibility: Blackberry® Pearl™ 8100

3. Installation

3.1 Using Blackberry Desktop Manager

You can download the zip archive extract to your personal computer use the ‘Blackberry Desktop Manager’ – Application loader, select and install the txtNotes.alx file it will install the corresponding cod file to your Blackberry® Pearl™ 8100.

3.2 Using OTA

Alternatively you can use the Over the Air (OTA) install option by pointing to the jad file from your Blackberry browser and continue with the installation. OTA install file is located at <http://www.dollars5.com/OTA/txtNotes.jad>

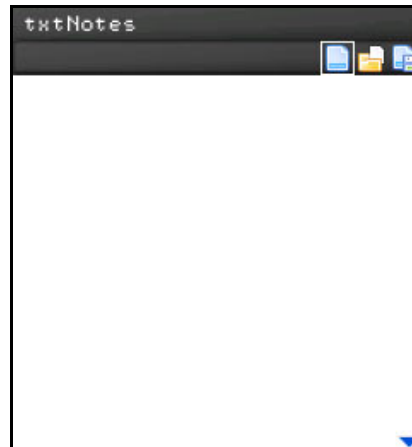

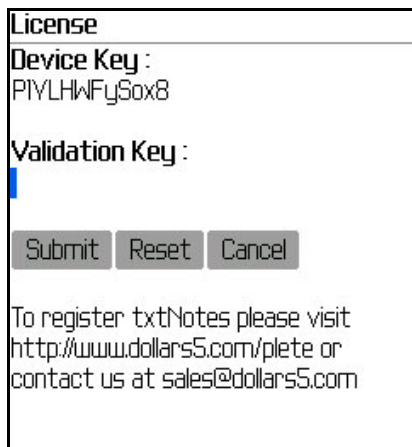

Once installed txtNotes will require license information to continue. The license can be purchased from Dollars 5 Complete website or its partner websites listed in the partners’ page.

4. Launching txtNotes

To launch txtNotes look for the icon in the Home screen/ Applications list and select it to start txtNotes application.

On successful first launch user will require to enter his license validation key. Once validated, user will be taken to the application screen.

4.1 Registering txtNotes

txtNotes requires license configuration and validation to continue for the first time. Purchase a txtNotes professional edition license from Dollars 5 Complete website at <http://www.dollars5.com/plete> or by contacting sales@dollars5.com

Registering txtNotes as professional edition is a three step procedure:

1] Purchase of professional license:

To purchase a professional edition license user is required to make the purchase from the website with contact details and correct e-mail address at the time of making payment.

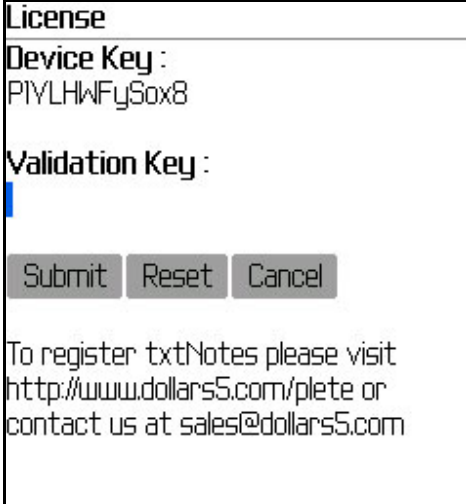

2] Mail the Device Key:

After purchase present Dollars 5 Complete with the device key information that can be located under License as illustrated. User can select and copy the key and mail from his blackberry device e-mail itself to sales@dollars5.com together with transaction information and provided e-mail address.

3] Validating using the Validation Key:

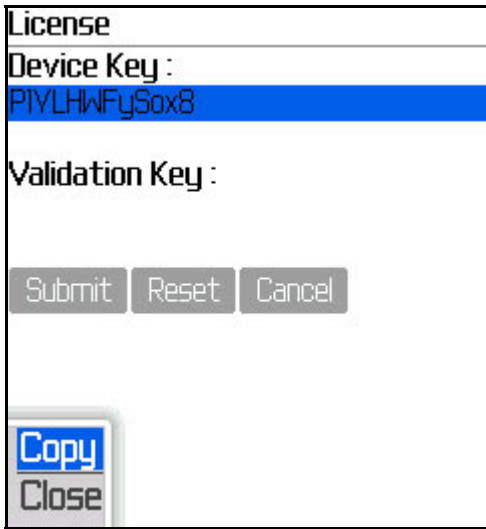

On receipt of the device key and transaction details Dollars 5 Complete will mail the Validation key to the provided e-mail address, which should be entered in the License screen.

Once validated only the validation key will be shown on the license screen.

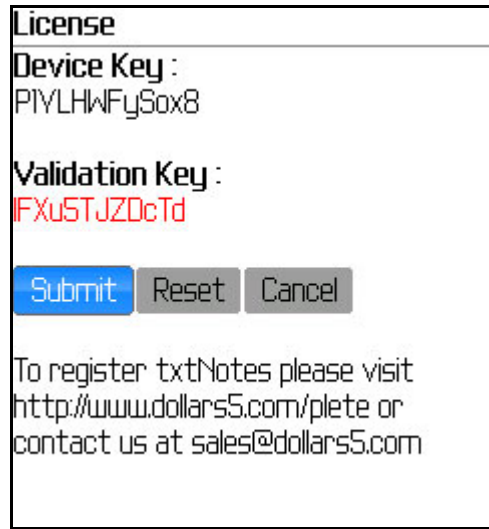

The screenshot shows a mobile application interface titled "License". It contains two text input fields: "Device Key :" with the value "PIYLHWFySox8" and "Validation Key :". Below the fields are three buttons: "Submit", "Reset", and "Cancel". At the bottom of the screen, there is a message: "To register txtNotes please visit <http://www.dollars5.com/plete> or contact us at sales@dollars5.com".

5. User Interface

txtNotes is a notepad application that can be used to create standard ASCII text files that are readable from a personal computer. It can also be used to export and import Blackberry memopad memos as text files.

Buttons/items	Descriptions
Filename	Name of the text file
New note	Create a new note at default location
Open file	Open a text file for viewing or editing
Save note	Save a note as text file under the given name
Editable text area	The contents of the text file that are editable

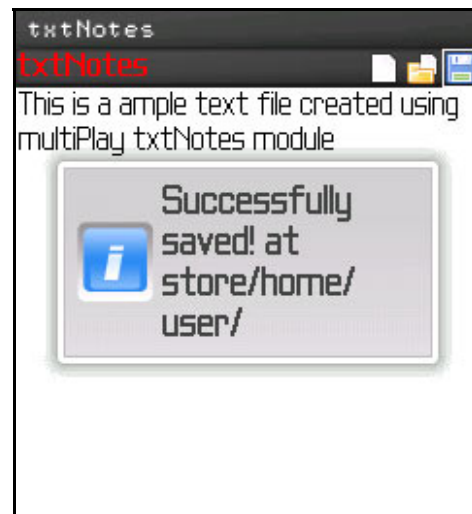

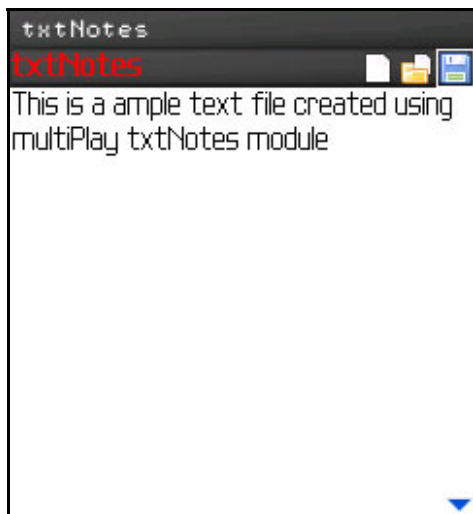

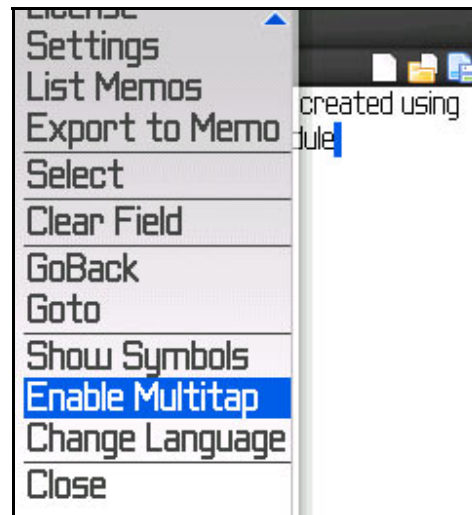

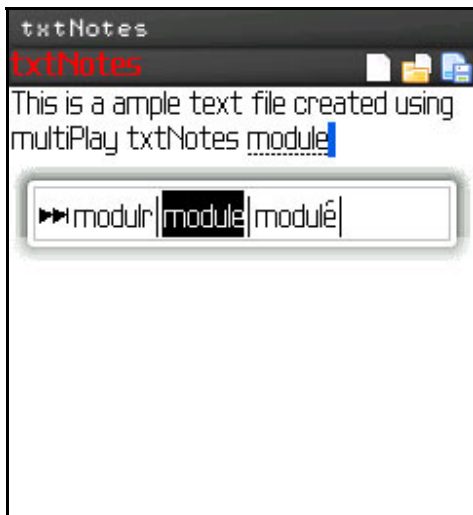

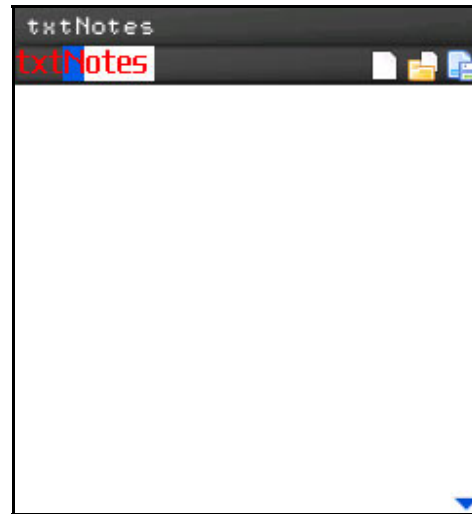

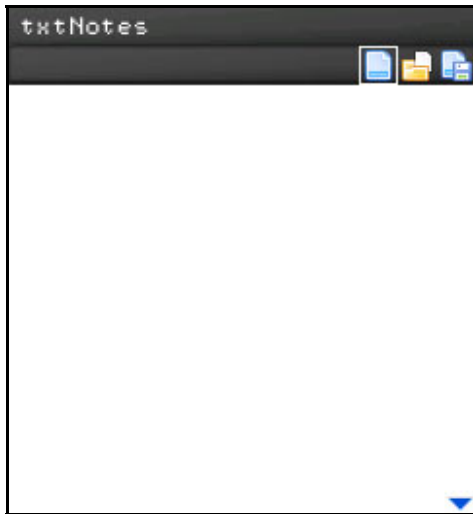

5.1 Menu Options

Menu options	Descriptions
Help	In-application help functionality
License	License information display
Settings	Configuration settings for txtNotes
New	Create a new text document
Open	Browse and open an existing text document
Save	Save the current edited text document under the given filename
List Memos	Lists the Memopad memos to import as text file
Export to Memo	Exports the current open text document file as a Memopad memo
GoBack/Close	Exit txtNotes, if any text document is edited prompts to save.

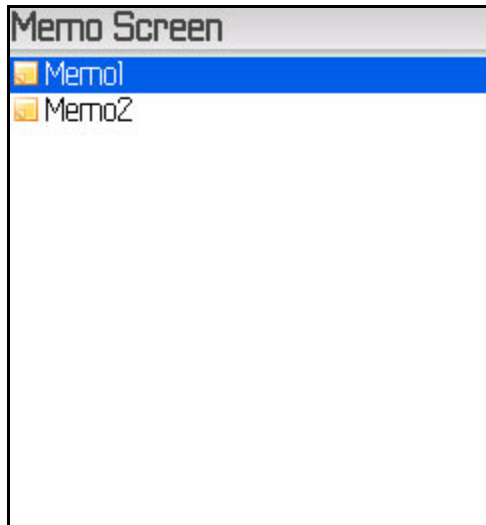

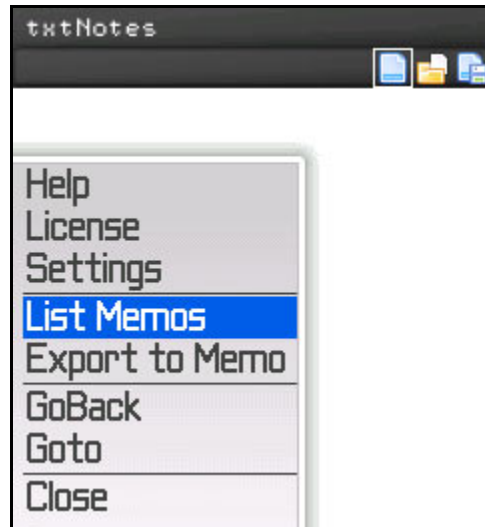

5.2 Create a text note

Click the new note button to create a new text note, edit the filename, edit contents and when done press save note to save it to default location. The default location is set from settings screen.

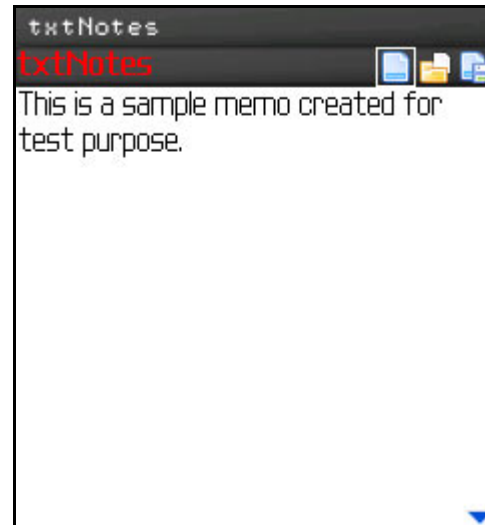

5.3 Import a memo as a text note

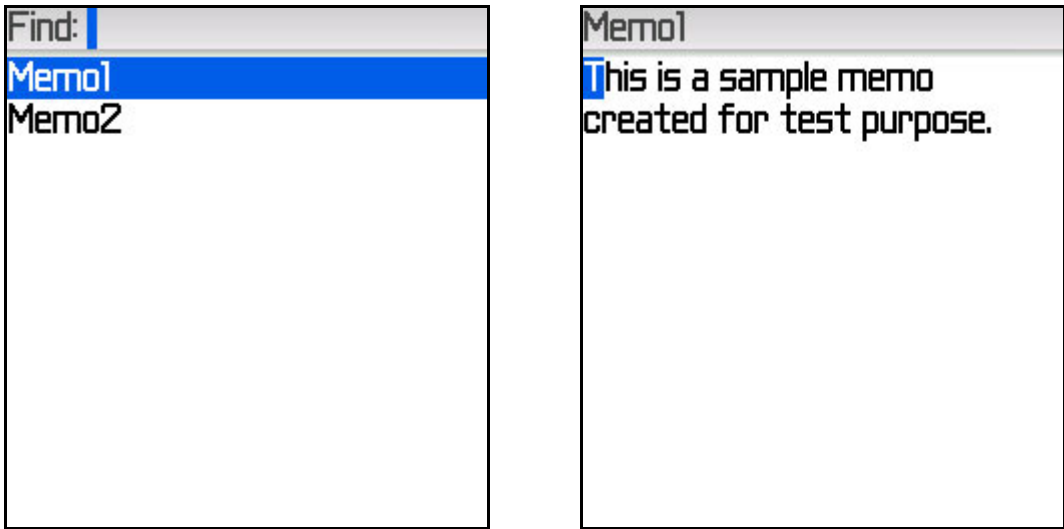

Users can import a memo from the Blackberry memopad memo as a text file using the menu option in txtNotes module. Select 'List Memos' menu option to display the list of available memos from memopad application, select and click a memo to import, the memo contents will be pasted into the editable text area of the txtNotes screen. User can chose to edit or save it as a text file by specifying a filename.

Select a memo
